Device Properties

Manufacturer: (Standard disk drives)
Location: Bus Number 3, Target Id 0, LUN 0
Device status: This device is working properly.
Sharing Tab

- Network File and Folder Sharing:
  - C:\
  - Not Shared

- Advanced Sharing:
  - Set custom permissions, create multiple shares, and set other advanced sharing options.

- Password Protection:
  - People must have a user account and password for this computer to access shared folders.
  - To change this setting, use the Network and Sharing Center.
Security Tab

The image shows a local disk properties window with the Security tab selected. The window displays the object name as C:\. The group or user names listed include Authenticated Users, SYSTEM, Administrators (DESKTOP-NE3A40V\Administrators), and Users (DESKTOP-NE3A40V\Users).

Below the group or user names, there is a note indicating that permissions can be changed by clicking Edit. The permissions for Authenticated Users are listed, including Full control, Modify, Read & execute, List folder contents, Read, and Write.

Additional options for special permissions or advanced settings are available by clicking the Advanced button.
Previous Versions Tab

(If server has Shadow copy turned on)
Quota Tab

This hard disk supports space limits for each user, so a single user cannot fill the entire disk. Click this button to view or change these limits.

Show Quota Settings
Show Quota Setting Button

![Quota Settings for (C:) window](image)

- **Status:** Disk quotas are disabled
- **Enable quota management**
- **Deny disk space to users exceeding quota limit**
- **Select the default quota limit for new users on this volume:**
  - Do not limit disk usage
  - Limit disk space to [No Limit]
  - Set warning level to [No Limit]
- **Select the quota logging options for this volume:**
  - Log event when a user exceeds their quota limit
  - Log event when a user exceeds their warning level

[Quota Entries...] [OK] [Cancel] [Apply]
